ENGINE-GUARD CRUISE BOARDS
FOR HONDA GL 80-87, SUZUKI CAVALCADE 86-89
- No other boards on the market even come close!
- Two optional mounting brackets work with all GL 80-87 equipped with OEM case guards
- Each set of brackets may be adjusted to accommodate tall or short riders
- Easy flip-up design with a positive locking mechanism holds boards in up or down position
- Real EPDM rubber inserts match the OEM Aspencade pattern (unlike the hard plastic used by many others)
- One part number fits all GL 80-87 and Suzuki GV1400 Cavalcade 86-89
- Available in chrome plated (die-cast rather than sand-cast) and with chromed bottom trim plates for that finishing touch
- Include all hardware; sold in pairs

DESCRIPTION | PART # | SUG. RETAIL

**DELUXECAM CAMERA MOUNT**

**FOR ALL GOLD WING MODELS**

- All Leader hardware is machined aluminum and chrome-plated
- Leader hardware features a patented slot-and-lug design that makes all parts interchangeable (including RoadRunner drink holder)
- DeluxeCam features eCaddy Deluxe’s extraordinary durability paired with a Panavise adjustable, flexible swivel camera mount
- Mounts a camera to left hand or right hand controls on Gold Wings, controls every angle and helps to ensure camera will never fall off
- Chrome mounting hardware looks like it belongs on the motorcycle; easy to install with no special tools required
- Made in the U.S.A.

**eCADDY LITE AND eCADDY DELUXE FOR ALL GOLD WING MODELS**

- All Leader hardware is machined aluminum and chrome-plated
- Leader hardware features a patented slot-and-lug design that makes all parts interchangeable (including RoadRunner drink holder)
- eCaddy Lite is ideal for mounting most items with standard belt clips, including cell phones, satellite radios, MP3 players, CBs and lighter GPS units; plate area measures 1 3/8” x 2 7/8” x 5/16”
- eCaddy Deluxe is ideal for mounting larger GPS units and XM satellite; plate area measures 1 1/2” x 1 1/2” x 5/16”
- Two-piece kits mount on the left hand or right hand handlbar control
- Multi-faceted lugs offer secure mounting at six different angles
- eCaddy Deluxe works with the standard four-hole “AMPS” pattern (1 1/2” x 1 3/4”)
- eCaddy Deluxe also works with diamond shaped “RAM” pattern (plate area: 1 3/16” x 1 3/16” x 5/16”), however some units will require a cradle between component and eCaddy
- Made in the U.S.A.

**SR-i900 RFID MOTORCYCLE SECURITY SYSTEM**

- The SR-i900R is a new generation two-way FM security system offering hands-free RFID technology.
- Simply walk towards or away from your bike, and the remote transceiver will automatically communicate an arm or disarm command using its proximity recognition system.
- This unique auto-arm and hands-free disarm operation provides the highest standard of security and convenience.
- Standard features include:
  - RF-ID for hands-free operation
  - Programmable auto or manual arming and disarming
  - Long-range FM transceiver (up to a 1/2 mile)
  - Range and signal status display
  - Compact design (31/16” x 23/4” x 7/8”)
  - Dual-axis accelerometer for detecting impact/inclination
  - Built-in 120 dB multi-tone siren with soft chirp
  - Sensor violation display
  - Audible/vibrating alert
  - Remote motorcycle finder/panic alarm
  - Programmable perimeter sensor with warn away that detects motion around the bike, protecting saddlebags, luggage and accessories
  - Built-in battery backup system allows the pager to operate even if wires are cut or circumvented
  - Ignition disable feature allows the user to remotely cut off the engine in case of hijack
  - Includes charging cord for remote receiver
  - Factory connector kits allow the alarm system to be integrated into the OEM-style harness (without any cutting or splicing sold separately, see page 514)

**NOTE:** Includes module, mounting kit and hardwire kit (not shown).

**SUG. RETAIL**............................$439.95

**PART #** 4020-0052

**SR-i800 RFID MOTORCYCLE SECURITY SYSTEM**

- The SR-i800R is a new generation two-way FM security system offering hands-free RFID technology.
- Simply walk towards or away from your bike, and the remote transceiver will automatically communicate an arm or disarm command using its proximity recognition system.
- This unique auto-arm and hands-free disarm operation provides the highest standard of security and convenience.
- Standard features include:
  - Passive arm disarm
  - Built in G sensor
  - Programmable perimeter sensor
  - Back up battery
  - Flash loadable MCU (enables future software upgrades)
  - RS232 data output for additional option (GPS tracking, external lights, saddle bags/trunk locking, air horn)
  - Factory connector kits allow the alarm system to be integrated into the OEM-style harness (without any cutting or splicing sold separately, see page 514)

**NOTE:** Includes module, mounting kit and hardware kit (not shown).

**SUG. RETAIL**............................$219.95

**PART #** 4020-0065

---

**SR-i600 SERIES TWO-WAY FM TRANSCEIVER – CONTROLLED MOTORCYCLE ALARMS**

- Ultra-compact two-way FM security system with waterproof remote.
- Include a handheld LCD transceiver that features both pager and remote functions.
- Transceiver constantly monitors and displays the current alarm status and confirms all commands with easy-to-understand icons and text.
- From up to 1/2 mile away, the two-way remote allows the user to control all of the alarm functions as well as receiver detailed information on the motorcycle’s status.
- Two-axis digital accelerometer detects both impacts and inclination; module can be placed in any position or mounting angle and requires no adjustments.
- Include a built-in 120 dB programmable multi-tone siren with soft chirp arm/disarm feature.
- Other standard features include: audible/vibrating alert, smart battery safeguard, sensor violation display, range and signal status display, clock with alarm, motorcycle battery condition display, rolling codes, ignition sensor, flashing light with memory, key lock and remote motorcycle finder.
- **PART #** 4020-0049 also features a programmable perimeter sensor that detects motion around the bike, protecting saddlebags, luggage, etc., and a built-in battery backup system that allows alarm to function even if battery wires are cut.
- **PART #** 4020-0050 also features a anti-hijack/ignition disable module that allows the user to remotely cut off the engine in case of a hijack situation.
- Factory connector kits allow the alarm system to be integrated into the OEM-style harness without any cutting or splicing (sold separately, see page 514).

**NOTE:** Includes module, mounting kit and hardware kit (not shown).

**INDEX**

- All part numbers in **BOLD MAGENTA** are new this year.
SR-C400 SECURITY SYSTEM

- All new SR-C400 offers two-way FM technology incorporating a small LED transceiver and an ultra-compact module, offering a perfect solution for limited-space vehicles
- Standard features include a long-range FM transceiver with a range of up to 1/2 mile
- Built-in 120 dB siren with soft chirp
- Dual-axis accelerometer for detecting impact/inclination
- Sensor violation notification
- Range confirmation status
- Audible/vibrating alert
- Remote motorcycle finder/panic alarm
- Smart battery safeguard with motorcycle battery condition display
- Built-in battery backup system that allows the pager and siren to operate even if wires are cut or circumvented
- Main control module measures 23/16" L x 3/16" W x 15/16" H
- Optional programmable perimeter sensor available (sold separately, see below)
- Factory connector kits allow the alarm system to be integrated into the OEM-style harness without any cutting or splicing (sold separately, see page 514)

NOTE: Includes module, mounting kit and hardware kit (not shown).

SUG. RETAIL.....................................$329.95
PART # 4020-0031

OEM 500i FACTORY-STYLE PLUG-IN SECURITY SYSTEM

- State-of-the-art factory-style security system
- Incorporates the analog-devices dual-axis acceleration sensor
- Two-axis digital accelerometer detects both impact and inclination with an extremely high degree of accuracy; module can be placed in any position or mounting angle and requires no adjustments
- Loud 120 dB programmable multi-tone siren with soft-chirp arm/disarm feature
- Waterproof three-button remote transmitter with rolling-code feature
- Flashing lights with memory display
- Manual- and auto-arming feature
- Optional anti-hijack kit and perimeter sensor available (sold separately, see below)
- Optional OEM-style factory connector kits allow the alarm system to be integrated into the factory wiring without any cutting or splicing (sold separately, see page 514)

NOTE: Includes module, mounting kit and hardware kit (not shown).

SUG. RETAIL.....................................$139.95

PART #  4020-0019

RADAR DETECTOR MOUNT KIT

Mount kit allows most radar detectors to be mounted to 7/8” or 1” diameter handlebars
Black anodized aluminum with a 3/16” clear-acrylic mounting plate
Measures 4 1/4” L x 5 3/4” W

DESCRIPTION  PART #  SUG. RETAIL

For 7/8” dia. handlebars  RM   $38.95
For 1” dia. handlebars  RM-1   24.95
ROADLOK® DEFENDER™ DISC LOCK FOR VICTORY 03-09 (ALL EXCEPT VISION)

- Unique motorcycle locking system which prevents the motorcycle from moving and cannot cause damage if you forget to unlock it before trying to ride
- Permanently mounts to the left side front fork of your motorcycle
- Billet aluminum construction
- BrakeBolt™ hardened stainless steel locking pin
- ABLOY™ EXEC locking mechanism
- Two RoadLoK® specific keys (prevents unauthorized duplication)
- ReKey™ secure key replacement program
- Features theft-deterrent lanyard, dome decal, all necessary mounting hardware and installation instructions
- 100% made in the U.S.A.

DSR-1003G DIGITAL RECORDER AND CAMERA SYSTEM

- Complete system lets you record your ride
- Now features 3GP technology – saves videos in 3GP format
- Improved video color and detail
- Built-in MP3 player allows you to listen to music, now includes Thumper helmet speakers
- Can be used as an active rearview camera system
- Weatherproof, bullet-style camera has a rugged aluminum housing and weatherproof connectors
- Digital recorder/playback unit has full-color display, records video and audio from camera and remote-mount microphone
- Records using standard compression and file formats
- Saves videos in 320x240 resolution at 30 frames/second
- Color LCD and built-in speaker for on-the-go playback or rearview use
- Helmet speakers included
- Uses USB connection for transfer of video/audio files to a computer
- Analog RCA video/audio output allows you to play videos direct to TV
- Includes multiple camera mounts, all necessary hardware and adapters for battery-powered operation and 12V DC power cable for operation off of the vehicle battery
- All cables and accessories included in convenient carrying case
- Replacement bike camera mount and helmet camera mounts available separately
- DSR DC5 power adapter cable powers and charges the DSR-100 recorder from the vehicle’s battery or any other 12V DC power supply
- Regulates and filters the DC voltage
- Power cable measures approximately 6 feet

RIDERLINK ST-1

- Full-duplex driver-to-passenger intercom
- System includes driver and passenger headsets; each headset comes with full-face and open-face-style microphones
- Speakers are music grade with excellent base response
- Music input with built-in amplifier (adapter cable included)
- Mobile phone input with included adapter cable
- Two-way radio input with two adapter cables and PTT switch; cable is compatible with Motorola, Cobra, Midland and many other two-way radio brands
- Radar detector/GPS audio input with included adapter cable
- Built-in FM radio with seek and volume controls
- Auto-mute circuit and microphone sensitivity control
- All adapter and extension cables are included and removable when not in use
- All mini DIN connections feature weatherproof moldings
- Durable mounting straps with high-impact plastic buckles
- Portable battery-powered unit (uses 2AA batteries)
- Main unit measures 2.75” W x 4” H, approximately 1” thick

SUG. RETAIL ...................... $189.95

SUG. RETAIL $24.95
PART # 4403-0043

All part numbers in BOLD MAGENTA are new this year.

SECURITY & AUDIO
N-COM COMMUNICATION SYSTEM

- Nolan’s N-COM system allows the freedom to talk on a mobile phone, listen to music on an MP3 player, get directions from a GPS navigation system, connect to a bike-to-bike radio, connect to some bikes’ existing audio systems or talk to a passenger via intercom.

- N-COM is for use with Nolan N-COM-ready helmets (like the N42/E, N84, N102/S and N103) and offers multiple configurations.

N-COM MOBILE

- Utilizes the N-COM Basic Kit to connect to a mobile phone using a model-specific mobile wire accessory (not available from Drag Specialties) or to a multimedia source (MP3, CD, GPS, etc.) using a multimedia wire accessory (sold separately).

N-COM INTERCOM

- Allows all the features of N-COM MOBILE but adds the ability to speak with their passenger (passenger must also have N-COM Basic Kit installed).
- Can also be connected to some bikes’ existing audio systems using motorcycle audio wire accessory.
- Requires Basic Kit and Intercom E-Box.

N-COM BLUETOOTH®

- Allows all the features of N-COM MOBILE but adds the ability to connect to a Bluetooth mobile phone, GPS unit or another N-COM BLUETOOTH helmet within range.
- Can also be connected to some bikes’ existing audio systems using motorcycle audio wire accessory.
- Requires Basic Kit and Bluetooth E-Box.

HOW TO BECOME AN AUTHORIZED N-COM DEALER

- Basic Kit includes earphones, microphone and leads for connecting devices and charger; installs easily in minutes without tools or modification.
- Intercom E-Box fits in the side of an N-COM helmet and includes a 110V charger, a rechargeable lithium battery and an intercom wire; allows rider to answer phone and control volume directly from their helmet.
- Bluetooth E-Box fits in the side of an N-COM helmet and includes a 110V charger and a rechargeable lithium battery; allows rider to answer phone, connect/disconnect with other N-COM BLUETOOTH helmet and control volume directly from their helmet.

ACCESSORIES

- Standard multimedia wire “S” connects any device with a 3.5mm, 4-pole audio port.
- GPS multimedia wire “T” connects Garmin Quest and Quest 2.
- GPS multimedia wire “U” connects TomTom Rider and Garmin 2610, 2720 and 2820.
- Bike-to-bike multimedia wire “K” includes push-to-talk button and connects Alan 445 and BT and Midland GXT600, GXT600VP4, GXT650VP1, GXT650VP4, LXT420, LXT420VP3, LXT320, LXT320VP3, GXT500, GXT550VP1, GXT550VP4, GXT550VP4, LXT410, LXT410VP3, GXT400, GXT450VP1, GXT450VP4, GXT300, LXT300VP3, LXT315VP3, G300, GXT300VP3, LXT310, LXT210, LXT210VP4, G225, GXT250, GXT550, LXT310 and LXT350.
- Bike-to-bike multimedia wire “W” includes push-to-talk button and connects Alan 777, K1 and K2 and Midland G5.
- Motorcycle audio wire allows rider to plug into the bike’s existing audio system; helmet must be equipped with Basic Kit and either Intercom E-Box or Bluetooth E-Box.
- 12V motorcycle charger allows rider to charge N-COM system without a power outlet; includes cigarette-lighter-style motorcycle audio wire accessory.

NOTE: Only authorized dealers can purchase N-COM products.
HS-ECOD584 SERIES HEADSETS

- Utilizes the new AeroMike® III miniature boom microphone with Dual Mode™ technology that allows one headset to function with any factory-installed motorcycle audio system ever built just by interchanging the lower-section hook-up cord
- Feature fidelity-enhanced DynaPort® speakers for open-face helmets
- Upper section of two-piece hook-up cord included with headset; lower section sold separately

MRC-11X RADIO COMMUNICATOR

- The newly redesigned MRC-11X allows you to speak to another rider up to 7 miles away — several times the range of other communicators
- Bike-to-bike communication can either be push-to-talk or automatically voice activated
- Special noise-cancelling/wind-blocking headset for maximum clarity and freedom with no shouting necessary, even in noisiest conditions
- Simultaneous driver/passenger conversations
- 22 FRS/GMRS channels and 38 privacy codes
- Large LCD with 16-function readout helps monitor the selected channels and codes, including battery condition and transmit/receiver status
- Aux input allows you to listen to CDs or other external music sources
- MHS-11XO premium open-face helmet-mount headset and push-to-talk switch included
- Sold each

PMC-2X DRIVER/PASSENGER INTERCOM

- Includes one communicator and two headsets for communication from driver to passenger on one vehicle
- Optional adapter cables let you communicate with other bikes by plugging any FRS/GMRS or PMR 2-way radio with VOX into the added jack
- Full duplex — driver and passenger talk simultaneously as though on telephones
- Electronic touch controls — no knobs
- Noise-cancelling unidirectional microphones for clear conversation, even at higher speeds
- Small (4" W x 2.75" L x .65" D), rugged, lightweight case weighs just 4.1 oz. and mounts on belt, or the clip can be removed and inserted in pocket
- AUX IN jack for listening to CD players
- No cumbersome handlebar or helmet mount — and no theft worries
- Includes two MO-type headsets for driver and passenger
- Fits all helmets; no drilling or cutting required
- Powered by three AAA batteries (included) or by vehicle battery with optional Battery Eliminator

PMC-3X DRIVER/PASSENGER INTERCOM

- All the features of the PMC-2X plus a powerful built-in FM receiver for on-the-road entertainment
- Includes one communicator and two headsets for communication from driver to passenger on one vehicle
- Optional adapter cables let you communicate with other bikes by plugging any FRS/GMRS or PMR 2-way radio with VOX into the added jack
- Full duplex — driver and passenger talk simultaneously as though on telephones
- Electronic touch controls — no knobs
- Noise-cancelling unidirectional microphones for clear conversation, even at higher speeds
- Small (4" x 2.75" x .65"), rugged, lightweight case weighs just 4.1 oz. and mounts on belt, or the clip can be removed and inserted in pocket
- AUX IN jack for listening to CD players
- No cumbersome handlebar or helmet mount — and no theft worries
- Includes two MO-type headsets for driver and passenger
- Fits all helmets; no drilling or cutting required
- Powered by three AAA batteries (included) or by vehicle battery with optional Battery Eliminator

SCALA RIDER® MP3 AUDIO UPGRADE KIT

- Adds the ability to listen to an MP3 player (not included) to the earlier model Scala Rider® Q2 and Scala Rider® Teamset™ Bluetooth® headset communicators that previously did not allow the direct plug-in of an MP3 player
- Included cable links MP3 player (not included) to jack located at back of audio kit
- Audio unit attaches to helmet with clamp or glue (glue plate included)

SUG. RETAIL.................................$49.95  PART # 4402-0061
THROAT-MIC COMMUNICATORS

- No more yelling over loud pipes with the finest, full-duplex throat-mic intercom systems on the market
- Designed specifically for noisy environments
- Throat-mic picks up voice signals from vibrations in the neck, not the air, so background noise does not register

FOX TALK RIDER/PASSenger INTERCOM

- Fox Talk system includes an intercom unit, a neck-ring with throat-mic for each the rider and the passenger and D-ring earpieces that can be placed in a helmet if desired
- Intercom unit has 3.5mm receptor that may be used to plug in an MP3 player
- Includes a Fox Sox carrying case

ROUTE 66 RIDER/PASSENGER INTERCOM AND VANQUISH THROAT-MIC

- The next generation of throat-mic transponders offer better quality sound, requiring only one mic
- Neck rings are 50% larger with a soft rubber covering; include an extension to allow a perfect fit on almost any neck size
- Ear bud speakers have a higher max volume than previous models and feature comfortable silicone tips
- Both systems allow the rider to connect any headphones, ear buds or helmet speakers with standard 3.5mm plug
- Vanquish includes one neck ring with throat-mic, one set of ear bud speakers and coiled, waterproof PTT button (extends to 5’); simply plug the Vanquish into an intercom unit or any radio (Motorola, Cobra, Garmin, AudioVox, Uniden, etc.) that accepts a standard 3.5mm plug and be heard clearly
- Route 66 includes a full duplex intercom unit, two neck rings with throat-mics and two sets of ear bud speakers

ACCESSORIES

- Cobra two-pin adapter allows the headset to be connected to older, two-pin radios by Cobra, Midland and more
- Fox Sox neoprene carrying case will protect your throat-mic system from everyday damage

HANDLEBAR MOUNTED SPEAKER SYSTEM

- Play music on bikes with 7/8”, 1” or 1 1/4” diameter handlebars
- Uses your MP3 player, satellite radio receiver or similar portable audio device
- 2” custom designed speakers in chromed “bullet” cabinets
- Includes a 50W “hide-able” amplifier with MAXXBASS®
- Digital volume control is built into the system
- Charge your audio device or cell phone with the USB Port

INDEX
**RUMBLE ROAD™ ULTRA AMPLIFIED STEREO SPEAKERS**

- Clear and powerful sound even at highway speeds
- RCA or Blaupunkt 4” Coaxial full-range speakers
- Built-in amplifiers and standard stereo mini-plug
- Produces approximately 70W continuous; 100W peak; into 4 OHM at 13.6 VDC with high-gain input
- Operates with or without the motorcycle running
- Packaged in an attractive chrome or black spotlight shell, it does not distract from the look of the motorcycle
- Features stainless steel or black grilles and all hardware included
- Works with most portable MP3 players and other personal stereos featuring a standard mini-plug headphone jack
- Installs easily on handlebars, spotlight mounting bars, forks or engine guards
- Made in the U.S.A.

**RUMBLE ROAD™ PREMIUM AMPLIFIED STEREO SPEAKERS**

- High-output, high-fidelity stereo speaker system produces crisp, powerful sound even at highway speeds
- Attractively packaged in lustrous chrome or black spotlight shells to enhance the look of most any motorcycle
- Can be installed on handlebars, crash bars, forks or other locations
- Work with any portable MP3, personal stereo or satellite radio
- Feature standard miniplug headphone jack
- Approximately 32W continuous, 46W peak into 4 ohms at 13.6 VDC
- Includes two 4” Rumble Road amplified speakers from Blaupunkt®, noise filter, all audio cabling and power wiring and 3’ of black wire dressing

**RUMBLE ROAD™ LIMITED NON-AMPLIFIED SPEAKERS**

- Custom product for motorcycles with existing car-stereo setups
- Attractively packaged in chrome or black spotlight shells to enhance the look of most any bike
- Based on the Rumble Road Premium Amplified speaker system, the non-amplified Rumble Road Limited is easily installed on handlebars, spotlight mounting bars, forks or crash bars
- Speakers work with any car-stereo system (either ground or bridged) to provide high-quality sound on the go or while parked
- 4 ohms at 105W peak/35W RMS
- Include two Rumble Road non-amplified speakers, two three-piece 1” mounting clamps in matching finish, wiring and 3’ of black wire dressing

**THREE-PIECE CLAMP SET**

- Perfect for mounting Rumble Road™ speakers on handlebars or engine guard bars
- Clamps separate to slip easily over the bar to the desired mounting location
- Sold in pairs

**L-BRACKET SET**

- Right-angled clamps are just the ticket for vertical mounts or other space-defying installations of Rumble Road™ speakers, AudioBox™ Audio Controller or other accessories
- Available in polished stainless steel or black
- Sold in pairs

JMCB-2003 HANDLEBAR-MOUNTED CB AUDIO SYSTEM

- This exciting product from J&M features a 40-channel CB radio, NOAA weather band, rider/passenger intercom and stereo music amplification from any Walkman®-type music device.
- Mount it to your left handlebar with the proper bracket kit, connect the headset/power harness to your bike's electrical system (choose below between solo or rider/passenger kits), install a J&M license-plate mounted CB antenna (or any other properly tuned CB antenna, sold separately), plug in your favorite J&M dual-mode helmet headset/headsets and you are ready to go.
- No other hidden black boxes to mount or clutter up your bike; complete system is on your handlebar (your Walkman-source music device is plugged into the system as a separate item).
- All knobs and controls have been designed for ease of use while riding, even with gloves on; water-resistant unit so you won’t have to worry about getting caught out in the rain.
- Audio performance is superb, even at high speeds.
- Mounting bracket and lower-section hook-up cord sold separately.

NOTE: The JMCB-2003 is a J&M 6-pin audio system that requires the pre-amplified microphone signal provided by the J&M dual-mode (ECD/ICD/BCD/CD prefixed) helmet headsets along with the lower section hook-up cord PART #4402-0047.

LICENSE PLATE-MOUNT CB ANTENNA KITS

- These license plate-mount CB antenna kits include a black powder-coated mounting bracket, 2', 3' or 4' antenna staff, mounting stud, frame attachment grounding strap, antenna connection cable, right-angle adapter, cable ties, mounting hardware and complete installation instructions.

Replacement Fairing/ Rear Speakers

FOR GL1500 AND GL1800 01-06

- Manufactured as exact replacements for the stock units, both front and rear, as installed on the GL1800 and front and rear for the GL1500.
- Designed for the specific power levels of the Gold Wing’s audio system to deliver maximum output and fidelity.
- 3 ohms impedance and 100+ watts power.
- Mylar/aluminum waterproof cone construction makes them impervious to the weather and repeated trips to the carwash.
- Complete kit includes wiring harness that plugs into the factory wiring harness plug located under the seat.
- Sold in pairs.
